

CORNISH (SILVER GREY) HORTICULTURAL SAND 0-2MM

BURY HILL
LANDSCAPE SUPPLIES

Our Cornish Silver Grey 0-2mm Horticultural Sand is produced from 100% Cornish granite chippings making it ideal for blending with soils and composts to create a free draining potting medium for growing Cacti, Succulents, Alpines and Rock Plants as well as for use with seedlings and cuttings.

A bi-product of the Cornish China Clay industry, our Cornish (Silver Grey) Horticultural Sand will assist in improving the structure and drainage in soils generally whilst increasing aeration and water retention which in turn helps to promote strong healthy root and plant growth. Bury Hill Cornish Silver Horticultural Sand has a neutral pH.

PRODUCT BENEFITS

- Quality verified
- pH Neutral
- Ideal for aerating soils
- Great for improving heavy soils
- Improves drainage
- Screened 0-2mm
- Easy to use
- Ideal soil improver for all Alpine Plantings
