

# COMPOSTED BARK FINES

**BURY HILL**  
LANDSCAPE SUPPLIES

Sourced from 100% British Mixed Spruce and Conifer, Bury Hill Composted Bark Fines are a sustainable, professional peat free growing media which is fully FCS regulated. Our Composted Bark Fines have a particle size of 0-10mm and are a valuable addition to our Barks & Woodchip range of products as this material will help to improve the structure and stability of soils whilst also increasing water retention and drainage.

Bury Hill Composted Bark Fines is procured from matured British natural fine bark which has been composted for a minimum of 12 weeks and turned frequently to speed up the aerobic process, and unlike some composted bark fines, we do not add Urea to our fines keeping it 100% natural. This results in a rich organic growing media which is packed full of nutrients, making it ideal for a wide range of landscaping applications and especially for improving and rejuvenating poor soils which will benefit from a slow release of minerals as the bark slowly breaks down into the soil. Derived from Spruce and Pine, our Composted Bark Fines are naturally acidic and will help to reduce the pH level in soils when used regularly as a mulch or dressing. This product is easy to spread and incorporate into soils and is extremely cost-effective.

## PRODUCT BENEFITS

- FSC Regulated
- Peat free
- Ideal for breaking up heavy soils
- Great for improving sandy soils
- Increases organic matter
- Improves moisture retention
- Increases aeration
- Packed full of natural nutrients & minerals
- Slowly releases nitrogen

- Sustainably sourced Acidic pH Mulch
- Fully compliant to industry standards and beyond
- Screened to under 10mm
- Virtually weed free
- Easy to use
- Aminopyralid free
- Suitable for immediate use

Available in bulk bags, small handy bags & loose

## TECHNICAL SPECIFICATIONS

Origin Species	100% Spruce & Mixed Conifer
Source	100% British Sourced
Particle Size	0 - 10mm
pH Level	6.0 - 6.5
Colour	Dark Brown
Longevity	0-2 years
Dust & Fines	100%
Availability	Loose, Bulk Bags & Small Handy Bags
Accreditation	FSC Sourced
