

PREMIUM HARDWOOD PLAYCHIP

BURY HILL
LANDSCAPE SUPPLIES

A blend of sustainable sourced selected British hardwoods, our 100% natural 5-35mm Premium Hardwood Play Chip, is chipped to a uniform size and offers a great balance between appearance, durability and economy, when compared to play barks and other decorative barks and surface coverings, making it a popular choice for local authority installations.

Fully tested for play use to BS EN 1177:2008, our clean 100% Hardwood Play Chip is a light chestnut brown in colour, which softens over time and has minimal fines allowing it to drain well giving the product prolonged longevity, which makes it a good choice for use in busy play areas. It is also a great alternative to more expensive play barks, whilst also being widely used as an economical option to decorative barks, meeting a wide range of landscape uses such as dressing and mulching beds and borders and path coverings, whilst also being ideal for chicken runs and coops.

PRODUCT BENEFITS

- Responsibly sourced from 100% natural & environmentally friendly sources
- Hard wearing & long lasting
- 100% Organic
- Suitable for all play areas
- Very consistent product
- Attractive light Chestnut brown colour
