

# PREMIUM PINE PLAY NUGGETS

**BURY HILL**  
LANDSCAPE SUPPLIES

Our chunky 30-60mm sized Premium Pine Play Nuggets are produced from 100% natural British pine bark, which fully conforms to BS EN 1177:1988 for use in children's play areas, making this an essential material when a safe, soft natural play surface is required.

A further benefit of this superb play surface material is its longevity, as it lasts far longer than other smaller graded play grade barks, thanks to its clean, easy-to-drain and frost resistant properties and minimal white wood content and very few fines. In fact, with annual raking, this bark will retain its colour and integrity for many years to come.

Its attractive reddish-brown colour and low pH also makes this versatile premium grade Pine Play Nugget ideal for a wide range of landscaping applications where a prestigious decorative finish is required.

## PRODUCT BENEFITS

- Responsibly sourced from 100% natural & environmentally friendly sources
- Long lasting
- 100% Organic
- Suitable for all play areas
- Decorative appearance
- Very clean consistent product
- Attractive dark reddish brown colour
